Experience

○	Leaz Edutech Jr. Web developer	March 23, 2020 - -
---	-----------------------------------	-----------------------

Leaz edutech is a private company, In which I have to make the websites for the company. By using various front end technology.
The requirements of the website are not so big. The needs of company is Dynamic website. Therefore by using HTML, CSS, JavaScript I develop the Dynamic websites for the company.
After the completion of development phase of website, I upload it on the server. The company is using the server of Namecheap, therefore I have to access the Cpanel of Namecheap server and upload the website there. And sometime company also ask me to clone a particular website and after all required editing I upload it on the server.
